

## **ANGOLA 3 STATEMENT OF SUPPORT**

Comrades of the Kansas Anarchists, Anarchist Black Cross and all other Revolutionary Organizations here today, I greet you from the belly of the beast! For the next 4 days you have dedicated yourselves to the task of sharpening the spear head that must symbolize the vanguard of Revolutionary Struggle in this country...I am talking about UNITY!

It's only through a Unity that is so deep that it defies Race, Sex, Class and Philosophy that we stand any chance to slay the parasite... Capitalist Imperialism! Capitalist Imperialism that at this very moment spreads across this planet eating away at the very fiber of humanity. Leaving in it's wake broken dreams, broken hearts and broken bodies!

All this destruction so that the Filthy Rich Ruling Class of America and the World can buy a few more trinkets that symbolizes their wealth and wanton power over the overwhelming majority of the Human Race! This must not be allowed to go on! This is the moment that each of you hearing these words that come from my heart, my soul and my dedication must rededicate yourselves. Look deep into your hearts, search your souls and ask yourselves what does your existence mean. Remember this... the spirit that is attached to a worthy and noble cause such as the Revolutionary Struggle to destroy Capitalist Imperialism does not die with the person. It transcends to others and inspires them to reach down and pick up the banner of the People's Struggle and march on until Victory is Ours! All Power to the People!

IN SOLIDARITY,

A. Shaka Cinque
